hello@libbyodai.co.uk

www.libbyodai.co.uk

Having recently graduated university, I am looking for a designer or developer role where I can fulfil my passion for technology, programming and digital design. I love learning new skills, whether they be new programming languages or innovative idea generation techniques. I have a strong work ethic as shown in my achievements in school work, previous employment and hobbies. I also work well in a team, having project management experience in both university and other exploits.

Web: PHP/HTML5/CSS3/JavaScript

Micro-Controllers: Arduino/Particle/Raspberry Pi/Electronics

Design: Photoshop/Illustrator/Sketch/3D Modelling/Animation

Software Testing: TestRail/Jira/Charles Proxy/Android Studio/X Code

Employment History

November 2016 – May 2017 -Quality Tester – Shazam Entertainment Ltd

Working in the quality assurance team within Shazam where I test software against specified requirements where I analysed bugs and wrote reports when a problem is found. This role also includes exploratory testing on new products and making end-user suggestions to the team to improve the product before launch.

May 2015 – September 2015 -Junior Developer - Rhythm Digital Manchester

Placement at Rhythm Digital where I worked with the team to complete projects, doing research and programming work culminating in me creating a demo application for Intel's Real Sense camera which can be found on my portfolio. During my time at Rhythm I also worked on illustration and graphic design as well as user testing projects.

September 2017 – Events Staff- Arco Events Twickenham Stadium

July 2014 - September 2014 – Bartender - Matt and Phreds Manchester

December 2013 - January 2014 - Store Assistant -White Stuff Bournemouth

August 2013 - December 2013 - Cocktail Bartender - Orange Rooms Bournemouth

Projects

I am experienced with different development methods and team working practises, such as agile and test-driven development cycles. I also have experience of working with clients on live briefs. For more information on my projects, please see my portfolio at www.libbyodai.co.uk.

Interests and Hobbies

In my spare time, I am a passionate roller derby skater and I often volunteer for my league, Royal Windsor Rollergirls. This includes working as a team to fundraise for the league and advertise our games. I also do graphic and clothing design work for national teams as well as for my own challenge team, Pivot Blocker Jammers. Please see my design work for roller derby here: www.libbyodai.co.uk/derby_designs.html

I also regularly participate in a variety of hackathons, including the Sex Tech Hackathon at Goldsmiths University where our group won the “Best in Performance Art Prize”.
